

Krum E. Finish

Eric L. Krum

First State Woodturners

Answer to Question on My Finish

- Have been asked numerous times to describe the finish used on the lidded boxes and wine stoppers

Pink Ivory

Longan Tree

Yellow Wood

Answer to Question on My Finish

- KrumE Finish consists of two components
 - Minwax Wipe On Poly
 - Minwax Paste Finishing Wax

Process of Creating Finish

- Five Steps
 - Wipe on Polyurethane
 - Wipe off
 - Wipe on wax
 - Cover wax in Polyurethane
 - Wipe off mix
- When finishing more than one wood item, gloves are worn

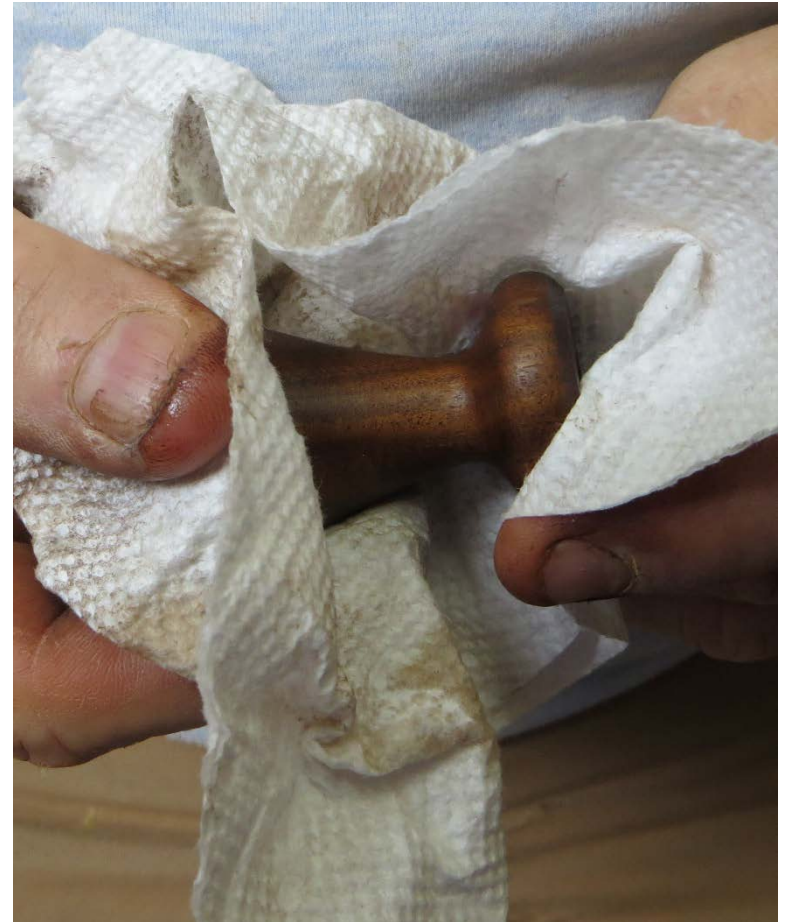

Step 1

- Wipe on Polyurethane with a cloth or paper towel
- Using Bounty paper towel in pictures in pictures
- Let sit for a couple of minutes

Step 2

- Wipe off Polyurethane
- If tacky apply more Polyurethane to soften prior application before wiping

Step 3

- Apply paste wax to surface

Step 4

- Cover wax in Polyurethane, dissolving wax

Step 5

- Wipe off wax & Polyurethane mix
- Polish with cloth or soft paper towel
